*Six Week PCO Course—Norcross
One Day CRAM—Norcross
Two Day CRAM—Tifton*

There is no better investment in your pest management career!

SIX WEEK PCO COURSE—NORCROSS

This program is GPCA's version of the "Purdue Course". It has been offered consistently by GPCA for more than 25 years, updated from overheads, & slides to CD and powerpoint. The material is timely and thorough covering everything from HPC—WDO—Mosquitoes—Rules & Regulations. This class provides plenty of time to review, ask questions and learn the material.

ONE DAY CRAM—NORCROSS

Originally designed as a 'refresher course' just before students sat for the PCO exam, the CRAM day has become a popular review. It moves fast and furious, touching on every topic covered in the Six Week Course, but there isn't much time for questions or interaction. This is a **CRAM** for 'finals' opportunity. (Seems to work really good also for people who have been in the industry awhile but don't have time to go through the six week program.)

TWO DAY CRAM—TIFTON

One day is HPC, the next is WDO. You get more time to discuss the program, but it moves at a pretty fast pace too. You can sign up for both days or only one.

CEU'S OFFERED TOO

At all three programs, you earn CEU points. Although not it's original intent, you can earn a slew of points at one time.

FAST FACTS:

- ✓ Earn CEU's at each program
- ✓ HPC & WDO training offered throughout each program —
- ✓ Excellent instructors
- ✓ Pick the class that suits you best
- ✓ Both CRAM programs include lunch
